

Quality Counts Peer Reviewer Rubric

The Quality Counts grant is competitive. A team of expert peer reviewers with experience in school improvement, management and direct experiences with charter schools will review grant applications. Each application will be reviewed a minimum of two times and may include further adjustments or reductions after awards are made. The review of the applications will utilize the criteria listed within the rubric included in the request for proposals.

Proposals that receive higher scores increase their likelihood of approval and receipt of funding at the requested levels. Department staff shall conduct a final review of all applications to ensure the application was completed with fidelity and complies with all requirements. Department staff shall determine the final budget for each subgrant recipient and will determine whether proposed activities are reasonable, allocable, and necessary. If the page limit of the application is exceeded, reviewers may reduce the total score by up to 10%.

No description provided or cited. The program's ability to help prepare students for college or develop 21 st Century skills is clearly defined. A sustainable, viable plan is articulated to continue the program beyond the life of the grant.
Comments: Score = 3 The proposal could be strengthened with a clearer vision and more comprehensive discussion of reaching and serving all students to meet / exceed Indiana's academic standards – there is virtually no discussion of Special Education or English Learner students in the cited pages.			

The proposal information sheet indicates that the school will only enroll 80 students in the first year, though the application narrative says it will enroll 120. The curriculum framework and instructional practices materials reference multiple teachers per grade, which does not match with the budget model. Furthermore, the sustainability plan narrative does not appear to match the budgeted CSP costs.
